

Hamburgh October 18th 1850

My very dear friend

On the 9th of May I answered very fully to your former letters, and offered you at the same time my best thanks for your sending of dried plants and books, (among which, the first volume of your *genera plantarum* was particularly agreeable to me) and forwarded to you a copious collection of plants gathered by Dr. Trevis in New-Holland, which I had reserved for you, further a complete copy of the *Synopsis Hepaticarum* and some ~~other~~ pamphlets. I begged you likewise to tell me, what should be agreeable to you from here. I repeat all this, as you probably had already left America before my sending had come to hand. —

Since that time I was favoured with two letters from you, the first dated Bonn July 22^d with the second part of your *Plantae Lindhei, americanae* and a collection of dried plants, which I think, have been taken from the Herbariums of the deceased Oakes; the second from London Septer 24th informing me, that you have delivered to Dr. Booth a small parcel *Hepaticae*.

from Mr Lowell for me.

I need not assure you of my joyful surprise
on learning your presence in Europe and I
confidently hoped, to see you here this year.
I thank you however heartily for your promise
of visiting me next summer with your lady,
to whom I beg to offer my sincerest compli-
ments. - I hope to be informed early enough
of your arrival here, in order to accommodate
myself, not to be absent from here.

The copies of the *Plantae Lindbormianae*
are ~~now~~ forwarded to their addresses, except
that, destined for Dr Vahl, which can only be
dispatched occasionally by a traveller. - One
exemplar of this scripture being without address
is yet, at your disposal.

On receipt of your letter, I instantly wrote
to Dr Booth to deliver the *Hepaticae* from Lo,
well to Mr W Saunpkin 45 North Street, Soho
Square, to be immediately forwarded to me.

I hope you have had much enjoyment on
the beautiful journey to Switzerland, and beg
leave to entreat you not to abandon the in-
tention of your visit next summer, for any
occurrence. Be assured, you will be received

with all the cordial joy, I feel in the hope
of seeing again an old friend as dear as highly
respected.

My best compliments to Sir William Hooker
Walliker & Benthame

Yours truly devoted
Lichmann.
